

Quentor Cases

Product information

Engine Cases:

**Lightweight,
ABS extrusions,
removable castors**

As the leading supplier of transportation cases to the top end of the motor racing industry Quentor offers engine cases in a wide range of specifications and price levels designed to meet your requirements.

Quentor are able to offer the choice of traditionally built transit cases using aluminium edging and lid/base extrusions, or Quentor's exclusive System 15 with tough ABS extrusions to create a rugged, stylish and modern looking case. This option can include weight saving honeycomb panels.

Signature Panel

The Signature panel™ was created to allow our customers a unique appearance. Your company name and/or logo is embossed onto the panel surface to give you an exclusive look.

For more information about Quentor's products please call +44(0)1603 721604 or visit us at quentor.com
