

# Quentor Cases

## Product information

### *The best weight-saving transportation & storage systems*

Using aluminium honeycomb panels Quentor has established itself internationally as the foremost manufacturer of weight saving transportation and storage systems for motor racing, and is proud that its' products have been chosen by many prestige names. Quentor has achieved its' enviable reputation by supplying innovative, quality products and giving first class service to its customers for over twenty five years.

#### **C.A.D.**

Quentor utilises computer aided design and manufacture to efficiently and accurately produce the cases you require utilising advanced methods and materials. A small selection are shown here. Quentor offer you the complete service including in-house design. Appearance is of considerable importance to impress the race goers and sponsors. Quentor can produce cases in colours to match your team's corporate identity and also offers its' unique Signature panel™. This incorporates your logo or name embossed onto the panel surface for an even more exclusive look.
