

Quentor Cases

Product information

Leaders in the manufacture of quality transit cases for motor racing

Quentor has established itself as the foremost manufacturer of transit cases in the UK for motor racing, and is proud that its' products have been chosen by many prestige names. Quentor has achieved its' enviable reputation by supplying quality, innovative products and by giving first class service to its customers for over twenty years.

Case Identity

Appearance is of considerable importance to impress both the race goers and sponsors. Quentor can produce cases in colours to match teams' corporate identity and also offers its' unique Signature panel™. This incorporates your logo or name embossed onto the panels surface for an even more exclusive look.

Design and Manufacture

Quentor utilises computer aided design and manufacture to ensure that its' products are made efficiently and accurately. A complete design service is offered and customers' drawings can be accepted electronically or in other formats. The company's skilled workforce operate to recognised quality standards and have gained accreditation to BS EN ISO 9001.

Typical applications include

- * engines
- * body panels
- * engineers' cabinets
- * timing equipment
- * weighing equipment
- * storage and parts bins
- * tool kits
- * monitors and televisions
- * communications equipment
