

Quentor Cases

Product information

Storage Systems

Designed to meet your specific needs

Quentor manufacture storage systems specifically designed to meet the operating requirements of individual motor racing teams, from simple trunks to complex setup cabinets.

Quentor are able to produce a variety of storage systems to suit your requirements.

For example, we offer:

Moulded bins case:

The moulded bins case is designed and manufactured to allow it to accept the exact bins size and quantity which you require.

Transfer case:

The transfer cases enables you to use your existing proprietary drawers without their heavy cabinets.

Fabricated drawers case:

This case contains built-in fabricated lightweight drawers produced to your individual requirements. These cases show the greatest weight saving.
